Technical Assistance

For

The Department of Language & Literatures
School of Education & Humanities

To review and develop the full higher education diploma and Bachelor
level units in Language and Literature

1. SERVICES

This TA will carry out a number of specific a number of activities related to improvement and upgrading of Department of Language & Expressive Arts ahead of establishment of the proposed School of Language and Communication (SOLAC), as listed below. This engagement is for a period of 45 days.

2. BACKGROUND AND RATIONALE

The School of Education & Humanities has grown in terms of its courses and enrolment since becoming a university. Currently, it offers certificates, diplomas and degrees in teacher education, journalism & media, and youth development work.

The department of Language & Expressive Arts is one of the five major departments under the Education discipline that offers Language and Arts course units across all levels of Teacher Education courses which include;

- a. Diploma of Teaching (in Early Childhood)
- b. Diploma of Teaching Primary (Preservice and In-service)
- c. Diploma of Teaching Secondary
- d. Bachelor of Teaching Primary (Preservice and In-service); and
- e. Bachelor of Teaching Secondary (Preservice and In-service).

The School is moving towards implementing changes in its teacher education courses to ensure it boosted its course content to 70 percent and teaching methods to 30 percent. This change entails rationalizing of the units to be offered under new course structures, and therefore the department of Language and Communications will need to decide on which Language/Literature units should be offered in the respective teacher education courses mentioned above. For clarification, the department offers units under 2 major subjects as follow:

- a. Language and Literature
- b. Expressive arts (includes music and arts)

3. PURPOSE

The purpose of this TA is as follows:

- 3.1. The expert shall assess the merit and sufficiency of the course structure and contents of Language & Literature units in various teacher training programs at the School currently.

- 3.2. The expert will develop all the core units for the Bachelor and Diploma programmes of a credible University. The units shall be part of both, teacher training programmes (Bachelor of Education, and Diploma in Education), as well as stand-alone Bachelor of Arts and Diploma in Arts programmes. For clarity, the Diploma programmes are Higher Education Diploma, comprising the first two years of a Bachelor programme.
- 3.3. The expert will assist the department to develop core units for university preparatory programmes in English. (This is equivalent to the year 12 and 13 in the country's education system, also known as Form 6 and 7]

4. OUTCOMES

- 4.1. The following outcomes are expected:
 - 4.1.1. A short report on the merit and sufficiency of the Language and Literature units offered in
 - 4.1.1.1. Bachelor of Teaching Secondary
 - 4.1.1.2. Diploma of Teaching Secondary
 - 4.1.1.3. Bachelor of Teaching Primary
 - 4.1.1.4. Diploma of Teaching Primary (Preservice and In-service)
 - 4.1.2. Recommend core units for English (Language & Literature) suitable for the Bachelor and Diploma levels of a credible university, and develop detailed unit descriptors for each unit using the recommended template of the University for developing unit descriptors. [The template is provided in Appendix I]
 - 4.1.3. Recommend core units for English (Language & Literature) in the University Preparatory program (equivalent to the year 12 and 13 in the country's education system), and develop detailed unit descriptors for each unit using the recommended template of the University for developing unit descriptors.

5. MQR

- 5.1. The applicant should have a Doctorate level qualification in Linguistics or Language or Literature. If the doctorate is in Literature, evidence of good quality performance in the core linguistics units at the Bachelor degree level is necessary. Candidates with a good Masters degree in Linguistics or Language would also be considered. Demonstrated experience in programme development in Language and Literature at a University standard (upto a Bachelor degree level) is necessary. Experience in teaching English at year 12 and 13 level in the Pacific is highly desirable.

- 5.2. Teams comprising 2 or more members with qualifications at the Master level in Linguistics, Languages and Literature, with programme development experience at the Bachelor level would also be considered. Such applications must nominate a team leader; in such a case all payments would be made to the team leader for disbursements amongst members.

6. FACILITATION

- 6.1. The expert shall work with the following people:
- 6.2. Dean of School of Education and Humanities
- 6.3. All staff currently teaching language and literature units
- 6.4. Director Planning and Development
- 6.5. Vice Chancellor
- 6.6. Pro-Vice Chancellor
- 6.7. Ministry of Education

7. LOGISTICS, COMMENCEMENT DATE AND PERIOD OF VISIT

- 7.1. It is expected that the expert shall carry out the desk study for all the Outcomes listed, and send a draft report to the Dean no later than 4 October 2019.
- 7.2. The Dean shall examine the documents, and send the expert detailed comments by 11 October 2019.
- 7.3. The Expert shall finalise the documents for presentation to the School Academic Board by 18 October 2019.
- 7.4. The expert may visit the School twice, once at the early stage of the project, and the final one for standby for addressing any query arising from the School Academic Board.
- 7.5. If the expert is from outside Honiara, the University shall pay return economy class fares to Honiara, and accommodation at the University owned or rented facilities.

8. REMUNERATION

- 8.1. The applicants should propose a single sum fee to include all costs other than that listed in paragraph 7.5 above.

9. CONTACT

- 9.1. Please send the EOI by 10 Sept 2019 to: ei.llc@sinu.edu.sb

1.0 Welcome

I welcome you to this Course and hope that you will find it enriching and interesting. This course will introduce you to

1.1 Course Description

This course offers
(One paragraph description of the unit – 5-7 lines only)

1.2 Learning Targets/Outcomes

On successful completion of this course, students will be able to understand the following:

- 1.
- 2.
- 3.
- 4.
- 5.
- etc.

To meet these outcomes, students are strongly recommended to follow the learning hours guidelines given in section 3 below. Self directed learning comprises all the recommended readings, writing workshop reports, doing your tutorial exercises, doing your assignments, and your revision. The hours indicated for these are indicative only. You need to pace your own self-directed learning.

2.0 Resources

List recommended textbooks or other resources needed. The list should list all books/monographs and reports that will be used, and names of journals, etc that will be referred to. One may also add a brief description of each material source (eg. Numerous textbooks are in the market which can cater for the first year AAA at the undergraduate level. A widely used text is by XYX. Copies of this book are available in the library. Materials from other sources are also prescribed as indicated in the reading list. These materials will be placed on reserve in the library

2.1 Text

List full reference of main text (if any) or refer students to section 3 for detailed reading list by topic

2.2 Supplementary Materials

List all supplementary materials

2.3 Class Shares

List full details on class shares

3.0 Course Content and Reading References

Provide an overview statement which describes any distinctive features of delivery, teaching and learning. Also describe the inclusion of practical elements of the course, e.g. a clinical component, an industrial attachment, etc. and the Guidelines for this learning and teaching. If there is a contribution by another provider, that contribution must be clearly identified, and describe how SINU will monitor this.

Notes:

- The result sheet shall record the % mark of the student, the respective grade point, and the cumulative

- grade point to the time of the result notification.
- b. The conversion from a mark to a grade point is as follows: for each mark less than 100, subtract from 5 the difference between 100 and the mark obtained multiplied by a factor of 0.066667. (For example: 5-([100-mark obtained]*0.066667). Thus, for a mark of 90%, the GP = 5-([100-90]*0.066667)=4.33. Or for a mark of 54, the GP = 5-([100-54]*0.066667)=1.933.) Schedule III of the Academic Policies provides the full conversions for all marks.
 - c. The formula for calculating GPA is: $\sum X_i (Y)_i$
where X_i is grade point in unit i, and Y_i = (credit point in unit i as % of total credit points for units done to the time of calculation of the GPA, irrespective of whether passed or failed).
 - d. GPAs, calculated as the sum on the grade points weighted by the credit points in each unit/course, include all units/courses that record a mark (%) or a letter grade ranging from A+ to E and including DNQ.
 - e. Grade points for credits transferred shall not be included in the calculation of GPAs.

6.0 Dissatisfaction with Assessment

Insert Procedure on grievance against assessment. eg: Should a student be dissatisfied with the assessment of a particular piece of work, either absolutely or relative to other student's assessments, two steps may be taken;

1. In order to rule out the possibility of error, the work may be referred back to the course Lecturer for checking/reassessment. In this case, the change in the grade, whether up or down, will then stand.
2. If there is still dissatisfaction with the assessment, then.....)
